

SMP – Services Corp.

Client: Poly-Tuff Systems International/All Season Decking
April 4, 2018

Inspection Report

On April 4, 2018, an in-depth evaluation of the PSI product; P-Tuff Classic was completed by SMP Services Corp. This product is a base coat application for exterior surfaces that will provide protection to the structure as per the manufactures specifications. All minimum slope of the surface shall be maintained. The P-Tuff Classic shall be installed as per the manufacture's specification. Please refer to section 3.4.5 of the PSI Technical Data Sheet for installation instruction and warranty information.

The P-Tuff Classic product, when installed correctly, will meet the requirements for exterior surface coating as out lined in Part 9 of the National Building code of Canada.

If additional information is required, please contact Steve Petrovich P.Eng. 403-605-7231.
