

SMP – Services Corp.

Client: Poly-Tuff Systems International/All Season Decking
April 4, 2018

Inspection Report

On April 4, 2018, an in-depth evaluation of the PSI product; TOPSHIELD 5600 was completed by SMP Services Corp. This product is a top coat application for exterior surfaces that will provide protection to the structure as per the manufactures specifications. All minimum slope of the surface shall be maintained. The TOPSHIELD 5600 shall be installed as per the manufacture’s specification. Please refer to section 3.4.5 of the PSI Technical Data Sheet for installation instruction and warranty information.

The TOPSHIELD 5600 product, when installed correctly, will meet the requirements for exterior surface coating as out lined in Part 9 of the National Building code of Canada.

If additional information is required, please contact Steve Petrovich P.Eng. 403-605-7231.
