

Features of E-Tuff® Flexideck® Systems

FACTS ABOUT E-TUFF® FLEXIDECK® SYSTEMS

- Patented Advanced Technological Coatings
- TDI Free Products
- User Friendly
- Environmentally Friendly & Safe
- Non Gassing for Applying in Any Thickness
- Fast Curing and Resilient System
- Tough Weather Resilient System
- Improved Slip-resistant Surface Available in Various Textures and Finishes
- Water Catalyzed Elastomeric System
- Elastomeric Systems
- Economical
- One-day Installation, Labor Cost Efficient
- Easy to Repair
- Joint and Crack Free
- No Electrical Conductivity
- Static Free
- Can Be Applied at Low Temperature up to 20°F (-6.6°C)

TYPICAL USAGE

GENERAL REPAIRING	RESIDENTIAL & COMMERCIAL	INDUSTRIAL & OTHERS
<ul style="list-style-type: none"> • Caulking • Sealant • Patching • Concrete Repair • Crack Filling • Expansion Joint • Seismic Joint • Sloping • Concrete Freeze Thaw Protection • Deck Substrates • Easy Installation • Fast Cure Repair 	<ul style="list-style-type: none"> • Vehicular Parking Decks • Balconies, Patios & Plazas • Pedestrian Walk Surfaces • Athletic & Game Surfaces • Fitness Centers & Exercise Floors • Play Surfaces • Kitchen Floor • Ski Industry Surfaces & Coverings • Tile Underlayment & Shower Pans • Pool Decks 	<ul style="list-style-type: none"> • Dairy Surfaces • Equestrian Surfaces • Mechanical Rooms • Ship & Boat Decks • Animal Habitat Floors • Food Processing Areas • Tank & Pond Liners • Shock Absorptive Surfaces • Computer Chip Manufacturing Plants • Static Spark Resistance • Manufacturing Plants • Concrete Repair
